## **INSTRUCTIONS FOR FOLDING YOUR COOKIE CATCHER**

1. Copy a Cookie Catcher for each girl, and cut out along outside edge (7 ½” square).
2. With printed side down, fold one corner to meet its opposite corner. Unfold.
3. Repeat with other corner – fold to meet its opposite corner, and then unfold.
4. With printed side down, fold each corner up to the center point.
5. Flip Cookie Catcher over (cookies and colors are face down).
6. Fold each corner up again to meet at the center point.
7. Fold in half lightly (in both directions) to crease.
8. Your Cookie Catcher is finished and you’re ready to play!

## **PLAYING “COOKIE CATCHER”**

- ❖ Start by opening the cookie flaps and insert a thumb and forefinger into each side. Keep the cookie catcher closed (all points touching in the center).
- ❖ Have a friend choose one of the Girl Scout cookies.
- ❖ Spell out the cookie’s name. As you say each letter, open and close the cookie catcher (in opposite directions for each letter).
- ❖ On the last letter, leave the cookie catcher open. Have your friend select a color (colors represent the cookie’s box color).
- ❖ Spell out the color while opening and closing the cookie catcher.
- ❖ Repeat this process several times (selecting and spelling out a color).
- ❖ On the last round when your friend chooses a color, open up the color’s flap, and read the special cookie message inside. Once the message is read, try to guess which cookie the message is about!
